

HSC Student Revision Workshops

This term, we are running revision workshops for students in every HSC Science for Module 6 (Module 2 Science Extension). These twilight workshops (3.30-5.30pm) have been designed by experienced HSC markers to best prepare students for the 2022 HSC exams.

Students will be:

- *unpacking all of the content*
- *addressing common mistakes and misconceptions*
- *developing strategies for extended response questions*
- *unpacking new practice questions*
- *learning what the markers are looking for*

All students will walk away with a variety of resources.

Click on the links for further details and registration:

- [HSC **EES** Student Revision \(Module 6\)](#) - Tues 15 Mar (Week 7)
- [HSC **Sci Ext** Student Revision \(Module 2\)](#) - Wed 16 Mar (Week 7)
